

## Session 1 B: Warm-up OGAP Proportionality

---

- 1) Based on the shape of the graphs below select the graph that represents a proportional situation. Explain your choice and why others were not selected.

STOP - Discuss

- 2) The graphs above were intentionally not labeled. Provide three different situations (contexts) that would fit the graph that you selected. Sketch the graphs, label the axis, and provide a title. (Do not put a scale on the graph.)

- 3) With your table members select three different graphs and place on chart paper. Be prepared to describe the situation.

- 4) Gallery walk and discussion
